

A place for every idea

Delivering an end-to-end unified idea and innovation management solution

The modular idea generation and portfolio management suite built on Office 365, edison365 creates the freedom to crowdsource ideas, and the platform to implement them. By leveraging Microsoft Office 365 and harnessing your employees' insight, edison365 turns your good ideas into great business solutions and services.

edison365ideas is part of the award winning edison365 suite – a unified idea and innovation management solution that turns organisations' ideas into visible and actionable plans. With a beautiful and engaging interface, easy to use on any device or browser and with zero training, edison365ideas ensures you realise benefits from day one.

Crowdsource ideas

Make sure every employee has the chance to be heard with edison365ideas, and reward them for their ideas to maintain higher employee engagement and morale.

Collaborate and develop

Anybody can rate an idea and add their own – building the foundations for business progress from the insight of every employee.

Make good ideas great

Keep track of every idea in your business – rank and select the best ones to refine them into real proven solutions.

Integrate and extend

edison365ideas is built for Microsoft Office 365, so it works with all the applications you are already familiar with – so you can make ideas a reality faster.

| Business objective | How edison365ideas helps |
|--------------------------------------|---|
| Stay competitive | Aligns with your business strategy; set challenges based on key objectives, or open ideation up to anyone, anywhere. Provides measurable results for a better understanding of your performance against your business strategy. |
| Engage employees | The beautiful UI engages employees to share their ideas and receive direct feedback. The simple intuitiveness of the solution means zero training and instant adoption ensuring employee retention. |
| Provide better products and services | Draws from the insight of every member of staff across multiple departments, to generate rapid enhancements, new solutions and business-wide efficiencies. |
| Improve the workplace | Harness the power of crowdsourcing and get company-wide feedback on ideas and in turn employees can be heard and rewarded. Standardises your approach to innovation through a single platform ensuring faster idea generation and implementation. |
| Leverage existing investments | Deployed and managed via the cloud, leveraging your existing investment, edison365ideas is built to work entirely on Microsoft Office 365, with data secured in the Office 365 tenant. |
